

Company Branding

Studios

- Logo Design
- Business Cards
- Branding Recognition
- Marketing Consistency
- Promotional Materials
- Brand Strategy & Execution

Here at OMA Comp, we will create the perfect branded logo for your business to increase company recognition. We'll create a series of prototypes for you to choose from to have your vision come to life. We can even work with previous work and update it for a more modern feel.

People think print media isn't as important as it once was. While the digital age has changed marketing, traditional print still plays an important part in reaching particular groups to contact your place of business. With targeted markets in your specified region or demographics, we will direct mail your trifold out to the precise audience.
