Joe Gough

Orest is more than just a vendor, he's a valued contributor to our team. We hired him to do web design, but what we received was a partner and expert. He has taken over as the "go-to" IT consultant in our Web 2.0 enterprises. Orest is simply invaluable to his clients.

Julie Silver

I have been working with OMACOMP for the past 8 years and they have been an amazing partner for all my computer needs. Designing/updating my web site, handling technical issues or brainstorming creative marketing ideas – they are top notch. I have developed professional relationships with all the team members and couldn't be happier. A great group to work with.
